

From Hire to Teaching and Learning Technology Access: Flowchart for a New Faculty Employee

(Not Applicable to Continuing Education Employees – Feb 3, 2022 version)

This document is aligned with the flowchart of the same name. The table here outlines a few more details for each of the steps in the process.

| Area of Responsibility | Action | Timeline Notes |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Dean's Office</p> | <ol style="list-style-type: none"> 1. Takes information from search committee chair re selected candidate. 2. Dean sends offer to successful candidate. 3. Faculty accepts work. 4. Gathers SIN and DOB (date of birth) from employee via phone (not in email due to confidentiality reasons). Dean's office will forward this information to HR via the phone. 5. Completes an Employee Appointment Requisition (EAR) Form. 6. Submits EAR to Human Resources: ear@nic.bc.ca | <p>Important that this be done as soon as possible as all access is contingent on HR setting up employee ID.</p> <p>EARs should be processed as soon as Faculty accepts work.</p> <p>No need to wait for contract to be signed.</p> |
| <p>Dean's Office</p> | <ol style="list-style-type: none"> 1. Completes a Network Access Requisition (NAR) form. 2. Creates request via https://servicedesk.nic.bc.ca ticket for IT and attaches NAR to ticket. 3. If office/phone details are not known at the time NAR is submitted, these details can be added to NIC Servicedesk ticket later (if still open) or a new ticket should be submitted. | <p>MUST be done at the same time EAR submitted to HR</p> <p>NOTE: each employee requires a separate ticket.</p> |
| <p>Human Resources (HR)</p> | <ol style="list-style-type: none"> 1. Receives Employee Appointment Requisition Form (EAR) from Dean's Office via email. 2. Creates a new employee ID in Colleague. 3. Emails CenTechs (IT) (centechs@nic.bc.ca) to advise them that a new employee ID has been created and shares that ID. Initiator (dean's office rep) noted on EAR will be copied on CenTechs' email. 4. Adds employee ID to FCTY in Colleague. 5. HR completes/sends out employee appointment. 6. Employee signs and returns contract to HR. | <p>Steps 1 through 4 will be given high priority but will process those needing to be on pay cycle first</p> |

From Hire to Teaching and Learning Technology Access: Flowchart for a New Faculty Employee

(Not Applicable to Continuing Education Employees – Feb 3, 2022 version)

| Area of Responsibility | Action | Timeline Notes |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dean's Office and/or Chairs | <p>For Instructor to Access Blackboard Learn or Brightspace</p> <ol style="list-style-type: none"> Dean's Office (or sometimes Chairs) fill out Section Request form (Excel spreadsheet) to request faculty be added to section(s) in Colleague. Emails form to Scheduling@nic.bc.ca. <p>Note: Indicate any cross-listing NOW on the form. Cross-listing means two sections of the same course that want to be considered as one as it populates in Brightspace. Please indicate any sections to be cross-listed (combining enrolments from two or more sections into one section) so they show up as one large section in Brightspace. This will help faculty, CTLI and SRO in the long run. Otherwise, cross-listing/combining enrolments later in Brightspace - is very messy and can result in additional work for instructor to copy over content, possibly lose grades or assessments for students etc.</p> | As soon as email with employee ID received |
| CenTechs (IT) | <ol style="list-style-type: none"> Complete network access set-up as specified in NAR. See Employee ID in CenTechs' email from Human Resources to confirm. Follow up with Human Resources, if need be, for any questions. Updates NIC servicedesk ticket with NIC technology access logins and processes these actions: <ul style="list-style-type: none"> o Exchange System for Email (email address) + temporary password o Mitel System for phone number o Share drive access o Security Groups for access to other resources (e.g., Microsoft Office and Adobe) | <p>Dependent on HR creating ID and receipt of NAR.</p> <p>One week of processing.</p> |
| Student Records Office (SRO) | <ol style="list-style-type: none"> Receive Section Request Form via scheduling@nic.bc.ca email <p>May or may not have been done before or done again to update:</p> <ul style="list-style-type: none"> • Set up a Course in Colleague – put flag on if requires a Brightspace shell • Create Sections (as per Dean's office requests) – any sections created from a course that already has the flag on it will automatically get a Brightspace shell (could add instructor initially or at a later date if instructor is not known as soon as instructor is known) <p>Note: Instructor must be added to FCTY by Human Resources to enable SRO to add instructor to FASC (that means they are in the section).</p> | <p>SRO: Will not 'activate' a section until all things are sorted out. All sections are defaulted to 'pending' until SRO set to activate.</p> <p>Timing: Refresh of system is instantaneous to do updates through ILP to Brightspace</p> |

(Not Applicable to Continuing Education Employees – Feb 3, 2022 version)

| Area of Responsibility | Action | Timeline Notes |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| | <p>Exceptions</p> <ul style="list-style-type: none"> • Trades get just the headers send to Brightspace and not all the courses with some exceptions <p>Note 1: Some sections may need to be cross-listed before activated (when activated sections). SRO unable to do cross-listing after the course has had registrations. You need to cross-list in Colleague so that the enrolments are together in one for managing waitlists and total numbers for workload – alignment for all.</p> <p>Note 2: A Brightspace course shell gets created for a section when that section’s status is changed to “active” in Colleague (at the time it gets activated – anyone that is in that section gets added to that course in Brightspace – add/remove).</p> | |
| Dean’s Office | <ol style="list-style-type: none"> 1. Advise new employee of technology access logins as specified in NIC servicedesk ticket once CenTechs update HD ticket. 2. Email new faculty employee with details completed from the “Email Template for Onboarding New Faculty” | |
| Faculty Member | <ol style="list-style-type: none"> 1. BlueJeans: Submit a request via https://servicedesk.nic.bc.ca/ > Service Catalog > Teaching, Learning and Classroom Support > Learning Technology Platforms – fill out form from their active NIC email for a BlueJeans account. 2. Website: Go to Teach Anywhere site to learn more about all the technologies. https://teachanywhere.opened.ca/ | |

From Hire to Teaching and Learning Technology Access: Flowchart for a New Faculty Employee

(Not Applicable to Continuing Education Employees – Feb 3, 2022 version)

| Area of Responsibility | Action | Timeline Notes |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| Timing | <p>Other points</p> <ul style="list-style-type: none"> • To manage expectations, a 2-week window is minimum time to process EAR and NAR. <ul style="list-style-type: none"> ◦ HR requires a week to create the employee ID in Colleague ◦ CenTechs (IT) require a week to complete the network access request • HR advises that their priority is getting new employees on payroll, so some weeks are deadline dependent. • IT and HR were agreeable that in instances of last-minute hires, we can escalate this into an “urgent” need and speed up the timelines. • EARs and NARS should be submitted as soon as possible to ensure they are processed in time and avoid last minute “urgent” requests. | |

Notes on Network Access Requisitions

- **Separate PROCESS:** Network access requests that do not involve setting up new credentials will be submitted through the NIC servicedesk process.
- When faculty change offices, phone locations, job positions – a new NAR will be required.
- NARs are often submitted prior to assigning offices, etc. so this new process will allow Dean’s office to follow up with additional information as it is known - so that CenTechs can set up computers, phones, etc.
- NARs must be fully filled out and not contain any information that is invalid or this slows down the whole process (e.g., requesting voice mail but no phone number – the form insists you need a phone # to get a voice mailbox).
- Cannot use people’s personal emails or person phone numbers for any of these processes. This is not acceptable.

Notes on Requirements for Teaching and Learning Platforms

- **Blackboard Learn:** NIC course learning platform (phased out Summer 2022)
 If NIC technology access login details are properly set up, the SRO’s office has loaded the Section Request Form and it has processed through to Blackboard Learn, the faculty member logs in a <https://learn.nic.bc.ca> for access to the platform and their related course(s).

From Hire to Teaching and Learning Technology Access: Flowchart for a New Faculty Employee

(Not Applicable to Continuing Education Employees – Feb 3, 2022 version)

- **Brightspace:** NIC course learning platform (phased in Winter 2022 and for all courses as of Fall 2022)
If NIC technology access login details are properly set up, the SRO's office has loaded the Section Request Form and it has processed through to Brightspace, the faculty member logs in a <https://mycourses.nic.bc.ca> for access to the platform and their related course(s).
- **BlueJeans:** NIC video conferencing platform for live course sessions and meetings
Faculty create request via <https://servicedesk.nic.bc.ca> > Service Catalog > Teaching, Learning and Classroom Support > Learning Technology Platforms – fill out form for BlueJeans Account requiring NIC email. BlueJeans requires an active NIC email address with phone number and position title to obtain an account with a temporary password faculty change when they first access their account. Faculty log in at <https://bcnet.bluejeans.com> with their NIC email and a temp password assigned when account is created.
- **Kaltura NIC MediaSpace:** NIC video streaming and storage platform for videos
If NIC technology access login details are properly set up, faculty automatically have access to <https://video.nic.bc.ca>. Faculty can also use Kaltura through another entry point in Blackboard Learn > Institution > My Media or Brightspace > (blue nav bar on main page or “More” in course) > Kaltura My Media
- **WordPress:** BC post-secondary employees and students – a free website and blogging platform
With NIC email, faculty can access <https://opened.ca> if they wish to create a website or blogging platform for their course or instructor use. This is optional and is only for those who wish a website/bloggging site.
